

GUT BARRIER PANEL OPTIONS

Candida albicans

 Nutricidin	<p>Nutricidin is a broad-spectrum botanical formula designed to support microbial balance and immune function, featuring key ingredients that target and help disrupt biofilms—protective structures formed by pathogens like <i>Candida albicans</i>—thereby enhancing microbial clearance and gut health.</p>
 Spectrum BR	<p>Spectrum BR is a high-potency nutritional supplement formulated to support gastrointestinal and respiratory tract health in individuals with <i>Candida albicans</i>, featuring herbal extracts—including berberine—traditionally used in Chinese Medicine that provide antioxidant and anti-inflammatory compounds such as polyphenols, flavonoids, tannins, and vitamins to help modulate the inflammatory response and support microbial balance.</p>
 UltraBiotic Akkermansia Plus	<p>UltraBiotic Akkermansia Plus is a cutting-edge probiotic formula featuring scientifically validated strains that support a balanced gut microbiome, healthy gut barrier function, optimal bowel regularity, immune defense, and the production of short-chain fatty acids—key for weight management and healthy glucose metabolism.</p>
 UltraBiotic Daily Multi-Strain	<p>UltraBiotic Daily Multi-Strain is a comprehensive probiotic formula delivering 30 billion CFU per serving from seven clinically researched strains, designed to support a healthy gastrointestinal tract and balanced gut microbiota.</p>
 UltraBiotic Prebiotic	<p>UltraBiotic Prebiotic is a scientifically advanced formula designed to nourish and balance the gut microbiome, promote the production of beneficial short-chain fatty acids, and support antioxidant activity, immune function, urinary tract and colon health, intestinal barrier integrity, and optimal nutrient absorption for comprehensive systemic wellness.</p>
 UltraBiotic Women's	<p>UltraBiotic Women's is a targeted probiotic formula featuring nine clinically supported strains, including <i>Lactobacillus</i> species, to promote a balanced vaginal and gastrointestinal microbiome, support reproductive and digestive health, enhance nutrient absorption, and strengthen overall immune function in women of all ages.</p>
 UltraBiotic Spore Probio	<p>UltraBiotic Spore Probio is a scientifically formulated blend of spore-forming probiotics, resilient to stomach acid, combined with digestive enzymes and the PreforPro® Phage Complex to support optimal gut colonization, balanced microbiota, efficient digestion, and healthy immune function.</p>
 MCT Oil	<p>MCT Oil is a highly concentrated source of capric and caprylic acids from pure coconut, providing rapidly absorbed medium-chain triglycerides that support energy metabolism and possess antifungal properties beneficial in managing <i>Candida albicans</i>.</p>
 Intestinal Cleanse	<p>Intestinal Cleanse is a great-tasting herbal formula designed to support comprehensive intestinal health in individuals with <i>Candida albicans</i> by promoting gentle waste elimination, rehydration, and healthy nutrient absorption through periodic intestinal cleansing.</p>
 GI Defend	<p>GI Defend is an unflavored powdered drink mix featuring ImmunoLin®—a serum-derived bovine immunoglobulin/protein isolate—that supports mucosal immune health and digestive function by binding, neutralizing, and removing gut toxins while promoting healthy immune responses and gut barrier integrity.</p>

Zonulin/Occludin

 GI Restore	<p>GI Restore is a great-tasting, easily digested nutritional formula that supports gastrointestinal integrity, digestive function, gut flora balance, and nutrient absorption through a targeted blend of amino acids, prebiotics, micro-nutrients, and antioxidants—formulated to be gluten-free, non-GMO, low glycemic, and low in allergen potential.</p>
 GI Defend	<p>GI Defend is an unflavored powdered drink mix featuring ImmunoLin®—a serum-derived bovine immunoglobulin/protein isolate—that supports mucosal immune health and digestive function by binding, neutralizing, and removing gut toxins while promoting healthy immune responses and gut barrier integrity.</p>
 D3 5000 with K2	<p>Vitamin D and vitamin K2 work synergistically to support gut barrier integrity by promoting tight junction function, modulating immune responses, and aiding in the regulation of inflammation within the intestinal epithelium.</p>

Zonulin/Occludin

 Binder Pro	<p>Binder Pro is a comprehensive formula designed to support gut barrier integrity and overall gastrointestinal health by binding and assisting in the elimination of environmental toxins, microbial byproducts, and other unwanted compounds—featuring key ingredients such as clinoptilolite zeolite, activated charcoal and chlorella algae.</p>
--	--

Lipopolysaccharides (LPS)

 GI Defend	<p>GI Defend is an unflavored powdered drink mix featuring ImmunoLin®—a serum-derived bovine immunoglobulin/protein isolate—that supports mucosal immune health and digestive function by binding, neutralizing, and removing gut toxins while promoting healthy immune responses and gut barrier integrity.</p>
---	--

FOOD SENSITIVITY OPTIONS

 Digestive Complete	<p>Digestive Complete is a broad-spectrum enzyme formula with complementary ingredients designed to support the efficient breakdown and absorption of proteins, carbohydrates, and fats—each requiring specific enzymes—for optimal digestive health and nutrient assimilation.</p>
--	---

 Digestive Vegetarian	<p>Digestive Vegetarian is a comprehensive formula containing 11 non-animal-derived enzymes designed to support the effective breakdown and absorption of carbohydrates, proteins, fats, lactose, sucrose, cellulose, and maltose—each requiring specific enzymes for proper digestion.</p>
--	---

 HCl Support	<p>Betaine HCl is a hydrochloric acid donor that supports optimal stomach acid levels, which are essential for activating pepsin—a key proteolytic enzyme involved in protein digestion—making HCl Support a beneficial supplement for individuals with impaired protein breakdown or digestive discomfort.</p>
---	---

 Glutezyme	<p>Glutezyme contains a comprehensive blend of digestive enzymes—including SEB Gluten Relief™ Protease Blend (SEB Pro DPP IV), amylase, α-galactosidase, lactase, bromelain, papain, lipase, cellulase, and glutamine—specifically formulated to support the digestion of gluten and casein.</p>
---	--

HEALTHY INFLAMMATORY SUPPORT OPTIONS

 Inflam-Eze Plus	<p>Inflam-Eze Plus supports a balanced inflammatory response with a blend of botanicals, including curcumin extract, boswellia serrata gum extract, white willow bark extract, hops extract, and devil's claw extract, all known for their potential to promote a balanced inflammatory response.</p>
---	---

 Inflam-Eze	<p>Inflam-Eze is a clinically formulated, plant-based nutritional supplement that supports immune health, gut function, and healthy inflammatory responses by providing a balanced blend of macronutrients, essential micronutrients, and evidence-based ingredients—such as turmeric, known for its potent antioxidant and anti-inflammatory properties—to help bridge common dietary gaps.</p>
--	--

 Curcumin 400x	<p>Curcumin 400x is a highly bioavailable form of curcumin, a curcuminoid and one of turmeric's major active constituents. Curcumin is documented to have anti-inflammatory activity.</p>
---	---

 PRM Resolve	<p>PRM Resolve provides omega-3 fatty acids (EPA and DHA) and specialized pro-resolving mediators (SPMs). Omega-3 fatty acids (EPA and DHA) help reduce inflammation by inhibiting pro-inflammatory cytokines and supporting immune balance. Specialized pro-resolving mediators (SPMs) derived from omega-3s actively resolve inflammation, promote tissue repair, and prevent chronic inflammatory conditions.</p>
---	--

 Detox Support	<p>Detox Support is a comprehensive formula featuring plant extracts like green tea, milk thistle, and pomegranate—along with essential micronutrients, cofactors, and amino acids—to support healthy liver function, immune response, and inflammatory response by promoting the activity of key enzymes involved in phase I and phase II detoxification pathways.</p>
